

## Agricultural Films

BPI Agri brings together, under one name, Britain's leading businesses in the research, manufacture and supply of polyethylene films for agricultural and horticultural use.

Our range of products comes from a long pedigree of pioneering work aimed at providing the best results for farmers and growers in more than thirty countries across the globe.

**Silage Sheeting** - a unique combination of polymer technologies which offers superior strength, high resistance to weathering and excellent opacity.

UAP Product Code	Size
VISB 1	8m x 50m
VISB 2	8m x 28m DT
VISB 3	11m x 42m
VISB 4	12.8m x 36m
VISB 6	14m x 30m
VISB 7	16m x 30m

**Silage Stretchwrap** - a wide range of lightweight, high strength films which ensure trouble-free wrapping and excellent protection for silage and haylage bales.

Available in black, white or green.

UAP Product Code	Specification
POLY 10	500mm x 1800m x 25mu
POLY 12	750mm x 1500m x 25mu

**Twine** - high strength baler twine for all silage, hay and straw requirements.

UAP Product Code	Specification
TWIN 09	FINE
TWIN 06	MEDIUM
TWIN 10	HESSTON 6800
TWIN 12	HESSTON 7200

**Netwrap** - manufactured from high-density polythene, the film requires less wraps to secure a bale which means up to 50 percent more bales can be wrapped per hour.

UAP Product Code	Size
NETWRAP 6	1230mm x 3000m (12g/m <sup>2</sup> )

## Horticultural Films

**Traditional tunnel covers** - a wide rang of high performance greenhouse films which promote plant growth, by acting as an effective thermal barrier, offering superior temperature control and selectively screening solar heat radiation.

**French & Spanish tunnel covers** - a wide range of the latest films designed for lightweight pol6ytunnels which combine improved thermic properties with diffused light for effective plant growth and a reduced risk of scorching.

Technical Specification  
 Sizes from 7.3 up to 14m wide.  
 4 season 180mu for traditional polytunnels  
 2 season 150mu for Spanish & French polytunnels  
 Available in standard lengths and cut to size

**Mulch films (black, black/white, blue)** - BPI Agri's superior mulch films prevents weeds and helps to effectively control plant growth by either raising or lowering soil temperatures and reflecting light to the plant.

UAP	Specification
Product Code	
VISBM 2	1.4m x 600m x 50mu black 3 yr UVI
VISBL 1	1.4m x 600m x 50mu Thermal Blue
VISBW 3	1.4m x 500m x 80mu black/white

Many other specs for all ground cover requirements.

**Perf poly** - advanced crop covering technology which incorporates hundreds of tiny holes to create a micro-climate, allowing early growing of a wide range of fruit and vegetables.

UAP	Specification
Product Code	
POLY 95	2m x 700m x 35mu (200 holes/m <sup>2</sup> )
VISM2	10m x 100m x 50mu (500 holes/m <sup>2</sup> )
VISM1	12m x 100m x 50mu (500 holes/m <sup>2</sup> )
POLY 28	12m x 750m x 50mu (500 holes/m <sup>2</sup> )

Note: 40mu also available
