

The Original (Model 2)

Original model with riveted anvil blade

Appreciated by professional pruners for its strength. Handles have rubber shock absorber & cushion to protect the wrist. Toothed centre-nut for aligning the cutting and anvil blades easily and precisely for a clean, accurate cut. Blade with wire cutting notch, sap groove, riveted anvil blade, forged aluminium alloy handles.

Length: 21.5cm

Weight: 240gm

CODE: FEL2

**Economy (Model 5)**

Economy model with steel handles

Recommended for basic garden maintenance. Pressed steel handles, tapered blade, and easy cutting adjustment.

Length: 22.5cm

Weight: 310gm

CODE: FEL5

**Compact (Model 6)**

For the smaller hand, light and compact with tapered cutting head.

Recommended for all pruning.

Length: 19.5cm

Weight: 210gm

CODE: FEL6

**Professional (Model 7)**

High performance model for intensive pruning with rotating handle which reduces the effort by a third when pruning.

Recommended for prolonged pruning. Revolving handle spreads muscular force evenly over all fingers, preventing tendonitis and inflammation.

Length: 21cm

Weight: 290gm

CODE: FEL7

Felco 600 Saw

Reliable: Rust resistant hard-chromed blade made of high-quality steel. Impulse heat treatment of the teeth. Clean, precise cut.

Parts can be replaced

Efficient: Conical blade shape that cuts without clogging. The set and shape of the teeth prevents sap build-up. Maintenance free

Ergonomic: Comfortable non-slip handle

Aluminium Loppers (Model 210A)

Interchangeable aluminium handled loppers are extremely durable. Ergonomic and comfortable, with a soft non-slip coating on the handles. Fine blade adjustment mechanism to ensure a clean, precise cut.

Maximum cutting diameter: 3.5cm

Length: 60cm

Weight: 785g

CODE: FEL21

**Felcotronic 800**

The lightest electronic profession pruning shears on the market for intensive, large scale pruning. Greater efficiency, less user fatigue and more comfort. A precise adjustment system for clearance between the blades ensures a clean, accurate cut, whilst the non-slip pads offer maximum hand comfort. The revolutionary Li-Ion battery technology and improved ergonomics reduce muscular effort in the arm and shoulder of the user. A padded fabric belt and harness optimises weight distribution of the battery. The very strong precision-forged aluminium body is guaranteed for life. Cutting ability up to 30mm.
